Dolphin Neurostim

*One Device,
Endless Health Benefits*

Get rid of Pain in minutes with
Dolphin Neurostim

What is Dolphin Neurostim?

Dolphin Neurostim is a revolutionary device that uses low-frequency microcurrent stimulation to activate key acupuncture points, providing immediate and effective relief from chronic pain. By targeting the body's nervous, muscular, and endocrine systems, it reduces stress, releases muscles, and stimulates endorphins.

Proven to reduce chronic pain by up to 80% after a single session.

That's not all, our device is not only #1 for Pain Management but also helps with the following for optimal health and wellness:

- Scar Release
- Vagus Nerve Stimulation
- Concussion Brain Therapy

A game changer for patients
and clinics

Learn more about these applications at
www.dolphinmps.com

How to apply?

Step 1: Learn

Watch our instructional videos or join our free Zoom tutorial to learn how to use Dolphin Neurostim.

Step 2: Practice

Start applying the device on yourself for learning.

Step 3: Experience

Notice the benefits yourself
after a few treatments.

For Pain Management

- **Locate Treatment Points:** Refer to the protocol manual.
- **Apply:** Hold the device on each point for 20-30 seconds.
- **Proven outcomes:** Published in science to reduce chronic pain - 75% (IJCAM) to 80% (JCAM) after a single session.

For Scar Release

- **Devices Needed:** Use 2 Dolphin devices.
- **Apply:** Target the scar area to promote healing and reduce pain by 73% (IJCAM 2017).
- **Effective On:** C-section, Tummy Tuck scars, Breast scars, Appendectomy, Gallbladder scars, Cosmetic scars, Hernia scars, Mastectomy scars, and more.

For Vagus Nerve Stimulation (VNS)

- **Accessories Needed:** Use the VNS accessories with the Dolphin device.
- **Apply:** Follow the Vagal Up manual for conditions like anxiety, depression, abdominal pain, digestion issues, chronic stress, sleep disorders, POTS (dysautonomia) and fatigue.
